

# 273S

**Before assembling, check to see if all parts are enclosed!**

1 back with slider

1 seat with seat base

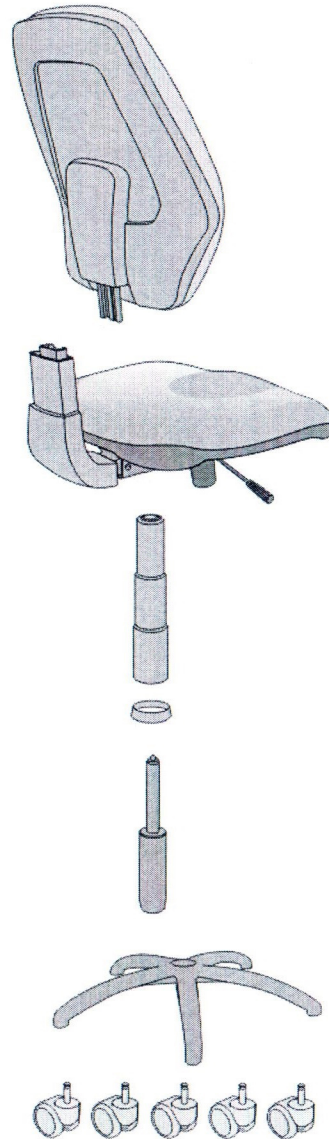

1 gas lift cover

1 collar

1 gas lift

1 base

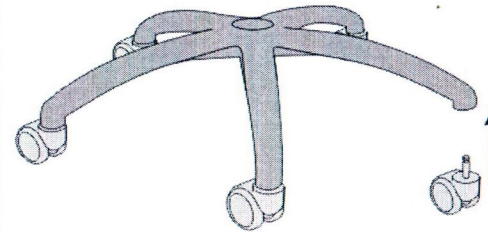

5 castors

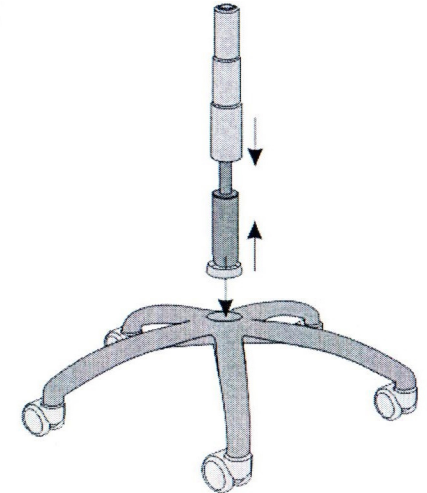

## ASSEMBLY

- 1) Insert castors into base.
- 2) Pull gas lift cover over the gas lift. Insert cover collar into gas lift (from bottom). Insert the gas lift into base.
- 3a) Pull the cover of the link up so that the edge of the cover is in the arbor of the link - see picture.
- 3b) Put the slide of the back into the link.
- 4) Firmly locate the tapered end of the gas lift into locating hole in the seat.
